

Model Performance Metrics

Date	4 Nov 2023
Team ID	NM2023TMID04561
Project Name	Creating a Blog Using WordPress Platform

Model Performance Testing:

Parameter	Values	Screenshot
Search Site	Search WordPress and open the website.	 <p>The screenshot shows a Google search for 'wordpress' on a new tab. The search results are displayed, including links to 'WordPress login', 'wordpress', 'wordpress download', and various WordPress themes and posts. Below the search results, there are several shortcuts: 'WordPress.co...', 'Inbox (8)', 'Inbox (1)', 'Google', 'Sign in', 'Sign in', 'Web Store', and 'Add shortcut'. The browser's address bar shows 'wordpress.com'.</p>

<p>Publish</p>	<p>Create a Blog and publish it.</p>	 <p>The screenshot shows a WordPress editor interface. The main content area displays the title 'Title: A Sweet Journey Through the World of Cakes: History and Varieties' and an introduction paragraph about the joy of cakes. A 'Publish' button is visible in the top right corner. A sidebar on the right contains various settings like 'Visibility: Public', 'Publish: Immediately', and 'AI Assistant'.</p>
<p>Poster</p>	<p>Blog Poster</p>	 <p>The poster is for 'Cake Castle' and features a large, ornate cake with white frosting and chocolate drizzle. Below the main cake are three circular insets showing different cake slices: a chocolate cake, a red velvet cake, and a strawberry cake. The text 'Cake Castle' is written in a large, elegant script, with 'COLLECTION' in a smaller, bold font below it. At the bottom, there is a dark brown banner with white text providing contact information: 'More Information : www.cakecastle6@gmail.com' and 'Contact Us : +123-654-7890'.</p>
